Call from [REDACTED]

He said he was concerned that people from the area would call in UAS reports on what he was convinced ~~was~~ were flares. He sighted the "flares" in the Early evening of 2 May 92, approx half way through the movie. They were approx. 5 miles away towards Daisy Hill, to the east. They were Purple-Reddish in colour and he was convinced as an ex-army member that they were flares.

NOTE: The matter was brought to the attention of the ATC's who^a after making observations from the tower and the radar screen saw a strange object low on the horizon between the 050 and the 060 radials. The object appeared to be glowing white with green and red lights also flashing from it. The object was still visible at 2130 but had moved to the North. Archerfield tower also confirmed viewing the object in the same radials with a similar description as said above.
